

## **History, Development and Challenges** **of NACE MR0175/ISO 15156**

***A workshop held jointly by the European Federation of Corrosion and NACE  
In conjunction with Eurocorr 2011 in Stockholm, Sunday 4<sup>th</sup> September, 2011***

This workshop is intended for conference participants with special interest in the philosophy of materials selection for sour service in Exploration and Production.

It will address the History and philosophy of the development of NACE MR0175/ISO 15156 and review the developments addressed in the 2009 revision. Special emphasis will be placed on worked examples that illustrate various aspects of using the standard.

Finally there will be an open discussion of the ongoing challenges that face users of the document

The workshop will be presented by:

**Dr. Chris Fowler**, current Member of the MR0175/ISO15156 Maintenance Panel, and Immediate Past President of NACE International.

**Dr. Derek Milliams**, former Chairman of the NACE MR0175/ISO15156 Maintenance Panel, and advisor to NACE International.
