Surface Preparation Issues Related to Corrosion Protection Performance

A Workshop during EUROCORR 2016
11-15 September 2016, Montpellier, France

The aim of this workshop is to bring together surface specialists, coating and equipment manufacturers and end users to share knowledge on the interaction between surface preparation and corrosion protection performance.

Contributions from academics and industrials are welcome on metallic and non-metallic surfaces, substrate properties, preparation methods as well as on inspection and monitoring techniques. Aspects of interface effects between substrate and coating performance are also welcome.

Abstracts should be submitted online via www.eurocorr2016.org until 17 January 2016. Further information on the conference, the scientific sessions and the venue can also be found there.

We are looking forward to your contribution to and participation in EUROCORR 2016 and would appreciate to meet you in Montpellier.

Workshop Chair:

Dr. Andreas Momber
Muehlhan AG
